### 21st International Educational Tour for Coroners, Pathologists and Interested Physicians

*MAGICAL MOROCCO OCT. - NOVEMBER. 2015,*

*ADVANCE NOTICE*

Hosted by Dr. Peter Cameron

Exotic is the first word that comes to mind to describe Morocco. Ancient cities exude a mysterious ambience leaving you with a strong impression. Also add into the mix, excellent beach resorts, snow-capped mountains, cedar forests, orange groves and the colourful Sahara Desert. It is a country influenced by Roman, Arab, Berber and French civilizations.

The largest city is Casablanca, the usual starting point when visiting Morocco, is an industrial and economic centre with beaches along the Corniche on the Atlantic Ocean. Marrakech, located in the foothills of the snow covered Atlas Mountains, is a popular favourite. It charmingly combines the old and the new. The Djeema El Fna Square is the centre of activity and at dusk is an exciting venue with its musicians, dancers and storytellers.

Fez, the former medieval capital, has one of the best preserved walled medinas (old city) in the Arab world with its special sights, sounds and smells and an excellent place to purchase leather goods. Nearby is Meknes, a modern laid-back city where you can view the Roman ruins of Volubilis.

Rabat, the capital, is on the Atlantic Ocean. Worth visiting are the Kasbah (market), Hassan Tower and the Royal Mausoleum and Palace.

In the south is Ouarzazate, a UNESCO world heritage site with some of the best preserved Kasbahs. It is from here that you can spend a night in the Sahara Desert.

The city of Tetouan, on the Mediterranean and gateway to the Rif mountains, has a medina which again is a UNESCO world heritage site with its Andalusian, Berber and Jewish sectors.

For pure relaxation, Agadir, on the Atlantic coast, is the best known beach resort with its natural parks, secluded beaches and excellent surf, a good place to end your visit.
